

Hummus Fit — Walk-In Pick Sheet

Physical walking order (K1 → K2 → K3 → M1 → M2 → M3) — matches the room blueprint. Bakery rows (K1-K3) run 35 positions/row; Meals rows (M1-M3) run 27 positions/row. Demand is sourced from real Shopify Online Store sales (90-day trailing daily average). "~" after a lane code means the last 7 days diverge more than 2x from that 90-day average — worth a spot-check. "Crates / Day" is daily replenishment need; "Units / Crate" is how many units fill one crate. Max stack per lane is 7 crates.

Bakery & Snacks
